DRAFT NO: 2 Prepared by: **Kevin Gogo**

Sign.....

Date: **20th January 2020**

CONSIDER THE FOLLOWING ITEMS:

1. There are **COMMON COURSES** that appear severally on Main University timetable, kindly let the class representatives find the exact groups that their program are scheduled to attend from department offering the common course.
2. There are situations where our **SERVICE COURSES** appear at the same time with same lecturer handling them. Let the lecturer handling the unit resolve that with the various class reps and communicate the change for inclusion. Where SERVICE COURSES offered to our students are colliding then the class reps could request servicing department to reschedule one.
3. There are **FREE ROOMS** in the timetable that can be utilized especially by common courses that we offer
4. The lecturers concerned should pick the key and open the lab, for lab classes that **begin at 7am**. Likewise lecturers who remain at the lab **past 5pm** should ensure to close the labs when done.
